**DIRECTOR'S REPORT TO REGION IV  
San Francisco, CA  
January 6, 2007**

First of all I would like wish all a happy and prosperous New Year and hope that you and your family had an enjoyable time during the holidays. Since our last meeting during the Midyear Meeting in Washington D.C., everything has been relatively quiet. The Executive Committee had one brief conference call meeting in the beginning of November regarding the posting of the Men's National Select Team Head Coach vacancy and the confirmation of Werner Fricker as the chairman of the National Cups Committee. Otherwise the airwaves have been silent.

As we start up 2007 we are once again preparing for all of the USASA programs and look forward to participation from State Association who have been missing in the past year(s) and hopefully expand the involvement from those State Associations who have been taking part in the various programs. It is my hope that every State Association will bring people for the workshops that will be active within those programs and are willing to work closely with the committee representatives from each program. As we continue to strive forward to put our Region back in the top position, it is important that all of us contribute toward each cause and each program. We are all aware that there are many tasks to be done to make the USASA what all of us want it to be. It is no surprise to anyone that each of us has a slightly different view of what will make us successful, but in order for our Region to be as good as we can be, positive participation is a necessity, which in turn reflects on the strength of the USASA. We have not reached that plateau and your commitment to participate will make it that much easier for all of us to be successful in reaching the goals and aspiration of being a top notch Region.

After reading this past paragraph it sure looks like a campaign speech. So, since it has been written I might as well take advantage of it and hereby announce my candidacy for the position of Region IV Director which election will be held next month during the Annual General Meeting. I want to thank all of you for giving me your support for the opportunity to not only serve as your Regional Director, but also to serve on the USASA's Executive Committee and the USSF National Board of Directors for the past two years. There is no question that you quickly find out that there's a big difference between being a Deputy Director or a Director. It has not been without its frustrations or difficulties, however your support over the past years makes serving in this position worthwhile and there are many, many things that still need to be addressed to make the USASA the great organization we all want it to be. I would like to continue to serve in this position to hopefully help in accomplishing the goals for the good of our Region and the USASA.

Sincerely,

Bill Bosgraaf  
Region IV Director
