

HAWAII SOCCER ASSOCIATION REPORT
Jan. 6, 2007

Meeting as frequently as we do as a Region, there is often not allot to report.

These past several months have seen the start of Fall season for many leagues in the islands. We were delighted to get a Men's League up, going and official on the island of Kauai. Though only 4 to 6 teams are presently participating it is nice to have the Garden Island active and participating in adult soccer. There is dialog in Kona on the island of Hawaii they they too may be joining the ranks of adult soccer. With the addition of these new leagues it opens up great possibilities of doing State wide competition and having island champions.

The Association has been working with the city in an effort to work collectively on getting the fields to their best playing conditions. Adult and Youth Associations are offering man power as well as financial resources to pick up on the budget cut backs that sadly impact the up keep of the parks. We have had weeding as well as painting parties at different fields. The Hawaiian soccer community is very strong and feels that the beautiful fields we have can not be neglected.

The past few years HSA has done a good job of watching funds and are now in a position of having some resources to look at to put back into the sport. HSA has formed a committee to look at possible ideas that could be a benefit to adult soccer and the the many that play the game.

Look forward to seeing everyone in San Francisco this weekend.

Aloha,
Donna D. Fouts
